CERTIFICATIONS SENIOR

The Senior Program is a certification at NSP that enables a patroller to level up their training and leadership through core and elective requirements designed for alpine patrollers, nordic patrollers, and other patrollers, with variations for each discipline. While first honing in on OEC skills, the Senior candidate patroller will dive into the development of high-level scene and care management by solidifying leadership, problem-solving, and decision-making abilities.

CERTIFIED

The NSP offers a Certified Program that helps patrollers take their training and skills to the next level. The Certified Program is a national education and skill verification program that provides a readily identifiable resource of highly-motivated, skilled, and knowledgeable patrollers to better serve the NSP, ski area management, and the outdoor recreation community. Certified is the highest level of certification available to alpine patrollers.
